Cordless Model

The Cutting Edge Saw™ has a unique flush-cutting blade guard that greatly reduces blade exposure. It also has a double insulated power harness and is ETL Certified & Listed.

This compact and lightweight tool has a 3-position removable side handle and a rotating trigger handle that provides the operator with multiple cutting positions and increased maneuverability in tight areas.

This amazing tool can cut a variety of materials including rebar, all-thread rod, coil rod, EMT conduit, pipe, tubing, burglar bars and more... It is designed to cleanly cut the material FLUSH with the surface.

The tool is designed to emit minimal cuttingsparks and the cut material is burr-free and cool to the touch. Also available as a battery powered tool: BNCE-20-18V (see picture above)
