GMC[®]

SIERRA

PORTABLE GASOLINE GENERATORS

COMMERCIAL GRADE

Versatility, Reliability And Powerful Performance

The GMC Trademark is used under license from the General Motor Corporation. California Air Tools Inc. is the distributor of the GMC Portable Gasoline Generators, Air Compressors and Pressure Washers.

California Air Tools, Inc.
8560 Siempre Viva Road , Unit 3A San Diego, California 92154

Tel: (866) 409-4581 Fax (619) 424-8697 www.GMCGENERATORS.com

All GMC SIERRA Portable Gasoline Generators (Commercial Grade) are designed for High Performance and Reliability.

GMC Portable Gasoline Generators have More Standard Features than any other portable gasoline generator in the industry.

NEW

Advance Control Panel (With Expanded Features)

Voltage Power Selection Switch

Allows you to choose between using both 120 and 240 Volts or 120 Volts only

Low Oil Shut Off System

The low oil shut off System is designed to prevent the engine from being damaged because of the lack of oil in the crankcase

Auto Throttle

Allows the engine to throttle down when not in full operation. Reduces Noise, Odors, Fuel Consumption and Wear on the engine

Digital Voltage and Time Meter

Easier to read and monitor the voltage and schedule time for maintenance.

Ground Fault Circuit Interrupter (GFCI)

For the prevention of electrical shock

Circuit Protector and Circuit Breakers

Prevents damaged to the generator, tools and appliances if overloaded

12 Volt DC Battery Charging

12 Volt DC battery charging capabilities for external battery charging

GMC

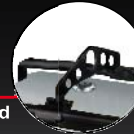

SIERRA

COMMERCIAL GRADE

NEW

Sky hook

Allows easy movement and transport of generator to above ground locations

NEW

Heavy Duty Steel Constructed frame Cart

Locking fold down handles

7.4 Gallon Steel Fuel Tank

NEW

Total Harmonic Distortion Less Than 5%

Allows for Sensitive Electrical Equipment to be used without damage

The GMC SIERRA Portable Gasoline Generators (Commercial Grade)

Feature Overhead Cam engines designed for high performance in medium to heavy-duty applications.

These engines provide reliable starts and durability for professional use.

- Dual Ball Bearing Crankshaft offers maximum stability under demanding loads.
- Chain-driven overhead cam design offers superior power and performance with an automatic decompression system
- Automatic decompression system ensures quick and easy, one-pull starting
- Heavy-duty piston rings coupled with a cast-iron cylinder liner resist wear and ensure a long engine life

Generator	
Model	SIERRA 5500
Rated Output	5000 Watts
Maximum Output	5500 Watts
Frequency	60 Hz
Voltage	120/240 Volts
Rated Amps 120/240	42/23 amps
Engine	
Engine Type	Subaru - EX35
Horsepower	12hp
Engine Speed (RPM)	3600rpm
Displacement	404cc
Compression Ratio	8.3:1
Fuel	Gasoline
Cooling System	Forced Air
Fuel Tank Capacity/Run time	7.4 Gal / 11hrs @ 50% load
Engine Oil Capacity	0.32 oz (1 L)
Spark Plug Type	NGK BR6HS
Features	
Starting: Recoil	Recoil
Automatic Idle Control	Yes
Low Oil Shut Off System	Yes
Digital Voltage, Frequency & Hour Meter	Digital Voltage, Frequency & Hour Meter
Voltage Power Selection Switch	120/240
Ground Fault Circuit Interrupter (G.F.C.I.)	Yes
Sky Hook	Yes
Fuel Gauge	Yes
Spark Arrestor	Yes
Alternator	Brush
Dimensions	
Length	47.3 inches / 1200mm
Width	29.5 inches / 750mm
Height	32.3 inches / 820mm
Dry Weight	200 lbs / 91 Kg
Tires	10 inch
Noise Level	80dB @ 23 ft / 7 meters
Battery Included/Type	N/A
Comes Complete with	2 Wheels, 2 Stands, 2 Handles, 1 Sky hook
Limited Warranty (generator components)	3 Year
Limited Warranty (engine)	3 Year
Limited Warranty (commercial/rental use)	3 Year
