

# Husqvarna Millenium® B5500.

## MAXIMUM PERFORMANCE BITS

- The B5500 HR is for fast drilling in flint, chert, and other hard aggregates with steel reinforcing. Good for fast general purpose drilling of any aggregate.
- The B5500 FC is for the fastest possible drilling on critically hard materials like concrete with heavy reinforcing. Effective on granite, marble, and other stone material.
- The B5500 Standard bit has the longest life and lowest cost per hole when drilling a wide range of critically hard materials with steel reinforcing. Also for brick and block.
- Custom specs are available including: open-end, spoke-back, non-standard length, and threaded tubing for deep drilling.
- The total segment height for this series is .400" (.300" diamond depth; .100" segment base).
